

I have these assignments that I put up for the ECE students at the beginning of the semester. At that time, they didn't have their books either, so everything you need to do the homework is in the web page:

http://users.rowan.edu/~beard/Electronics_I_ECE_Materials/Homework_2007-01-16.htm

http://users.rowan.edu/~beard/Electronics_I_ECE_Materials/Homework_2007-01-18.htm

The first is very simple, and is given from the exercises in the chapter, not the homework at the end of the chapter. It's actually just a study aid. The second one is a real homework problem, albeit not a hard one.

Due date is the first Wednesday after return from Spring Break. Questions? Send email. I'll be responding to email during Spring Break.
